Our Mission
To serve as a medical home for the underserved and those who are most vulnerable by providing comprehensive, dependable and affordable quality health care in a caring environment.

Our Vision
To be a recognized leader in improving the health and wellbeing of Los Angeles’ underserved communities by delivering quality medical and social services through innovation, creativity, partnerships, and public policy advocacy.
Message from the CEO and Chair of the Board

Dear Friends and Colleagues,

As a neighborhood health center, Saban Community Clinic is proud of the prominent role we have played caring for our community over the past forty-nine years. Today, we are committed to redefine the way we work and increase the quality of care for our patients.

2016 will be remembered as a year of continued expansion and growth. In a move towards an integrated and holistic approach to healthcare, we are well into the process of becoming a Patient Centered Medical Home (PCMH) and expect full accreditation in September 2017. This new whole-person-care format will increase the quality of care, reduce wait times, and ensure access to all medical, dental, behavioral health, and social services care under one roof.

Highlights of some accomplishments from 2016 include the opening of a new, on-site pharmacy at our Wallis Annenberg Children and Family Health Center. Patients can now pick-up their medications following their appointments. The American Cancer Society recognized the Clinic as a leader in Colon Cancer screenings, and additionally, the free shower program hosted more than 7,000 showers for our homeless neighbors. Finally, Psychiatry services and trauma groups were expanded across all three sites.

None of this would have been possible without your loyal partnership in this important work. We applaud our dedicated staff for the intricate role they play in administering care. We salute our numerous volunteers for their tireless and loyal devotion, and we are grateful to our Board members, our community partners, and the Friends of Saban Community Clinic, whose extraordinary commitment and focus allow us to continue to operate and provide these critically needed services.

As we look towards our future, Saban Community will continue to adhere to the belief that healthcare is a right, not a privilege. Regardless of changes in today's healthcare landscape, our doors will remain open and we will continue to provide much needed health care to those in need.

We extend our deepest gratitude to each of you for your invaluable support,

Julie Hudman, Ph.D.
Chief Executive Officer

Robert Broder
Chair of the Board
OUR PATIENT PROFILE

Our patients are at the heart of everything we do. We pride ourselves on serving everyone who walks through our doors, regardless of their ability to pay, health coverage status or immigration status. Our goal is to provide quality healthcare in a safe environment with respect and dignity for all.

107,011 TOTAL VISITS

18,858 PATIENT COUNT
A PATIENT-CENTERED MEDICAL HOME

At Saban Community Clinic we value continuous improvements in quality and service. We strive to ensure that our patients' experience is the best it can be and are working to achieve official certification as a Patient-Centered Medical Home (PCMH) by the National Committee for Quality Assurance in 2017.

Our staff is committed to a holistic model of integrated care that strengthens the physician-patient interaction, provides coordinated team care, and establishes a long-term healing relationship to enhance a patient’s overall health care experience. In 2016, we began implementing the fundamentals of the PCMH integrated care model and have already seen significant improvements in patient satisfaction, quality of care and wait times being reduced by almost 40 percent.

In 2016, the Clinic increased our minimum wage to $15.00 an hour, ensuring all staff could earn a “livable income.”
Increasing Life-Saving Screenings

Annual health screenings play a key role in preventive care to ensure patients remain in good health. Our dedicated team of Preventive Care Coordinators track and monitor patients in need of additional screenings. Individual outreach and reminders help patients stay on top of future appointments.

Wiping Out Colorectal Cancer

The American Cancer Society (ACS) identified Saban Community Clinic as a leader in California for colorectal cancer screenings after a 48 percent increase in screening rates.

Thanks to an ACS grant, the Clinic introduced an innovative bilingual outreach campaign that garnered attention from clinics around the country. The campaign encouraged patients to get screened for colorectal cancer by “Checking Their No. 2.” The toilet paper campaign integrated marketing strategies with clinical work to deliver an impactful screening message.

Outreach activities included: toilet-papering restrooms and patient waiting areas, distributing American Cancer Society education materials, promotional item giveaways, patient reminder cards, text messages and contracting a local taxi company to provide transportation for patients to their colonoscopy procedure.

Whole Person Care

How We Care For Our Community

Preventive Health Care Coordinators Cynthia Mendoza, Ivanna Castillo, and Monique Olivas help patients through the cancer screening and care process.
Fortifying Women’s Cancer Screenings

Breast and cervical cancer are two of the most commonly diagnosed cancers among women.

Our Breast and Cervical Cancer Early Detection Programs ensure low-income, uninsured or underserved women have access to vital screenings, follow-up, and guidance through the care process. According to the American Cancer Society, cervical cancer death rates have decreased more than 50% thanks to the use of the Pap test.

In 2016, we introduced a bilingual ‘bikini’ education campaign to promote the importance of early detection and encourage women to get their top (mammograms) and bottom (Pap smears) checked. Also, through a partnership with HealthNet, we hosted free cervical cancer screening classes in English and Spanish.

The RAR Foundation generously supports our Patient Navigators for the Collaborative Diagnostic Breast Cancer Screening Project (CDBCP). In 2016 their partnership helped screen 2,931 patients and identified 13 patients that were diagnosed with cancer and linked to appropriate cancer treatment.

Cervical cancer screenings were up 62% and breast cancer screenings were up 77%.

Brightening Community Smiles

Our Dental Clinic provides affordable, primary dental care for children and adults. In 2016, we provided 14,975 dental visits and implemented two innovative patient outreach campaigns to encourage good oral hygiene habits in children from a young age.

In the summer, we held a Dental Carnival for the community with fun activities for adults and kids, plus free giveaways including dental kits and toothbrushes.

During the Halloween season, we launched a “Scary Teeth” campaign to inform parents of dental sealants as an option to protect their children’s permanent molars from cavities and decay, ensuring healthy teeth that last a lifetime. The dental sealant rate at the Clinic (the percentage of our 6-9 year old patients who have their first molars sealed) is 77%.

Pap smear
21 & older

Our Dental Clinic provides primary dental care for children and adults.
Pharmacy Opens
Our new on-site pharmacy opened its doors at the end of 2016 at our Wallis Annenberg Children & Family Health Center.

Having an in-house pharmacy is an important element of our whole person care approach. Our doctors and pharmacists work closely to coordinate care from diagnosis through treatment, with the added convenience of picking-up their prescriptions on the same day as their appointment.

De-Stigmatizing HIV Testing
The Clinic has been at the epicenter of the HIV/AIDS pandemic and aims to reduce the stigma associated with HIV testing by making screenings a routine part of our comprehensive medical care. We are committed to the fight against AIDS by fostering understanding of the importance of HIV testing. Every year, the Clinic participates in National HIV Testing Day in June and World AIDS Day in December to promote awareness.

In 2016, the Clinic dispensed 28,686 medication prescriptions free of charge to patients in need, regardless of their insurance status. Pharmacists Charisse Lozano, Odette Reyes and Elisabeth Normand collaborate with doctors on adherence to medications, doses and options.

Clinic staff participated in World AIDS Day activities and encouraged patients to “Know Where You Stand.”

5,467 HIV TESTS

Our infectious disease specialists treat patients living with HIV with a comprehensive treatment plan. They also work with at-risk patients on HIV prevention.

In addition, we link HIV-positive patients to care outside the Clinic when needed. The Clinic’s HIV linkage to care rate is 78%.
Reducing Opioid Dependence

Our nation has been experiencing an unprecedented opioid epidemic that public health officials have called the “worst drug crisis in American history”. California is at the epicenter of the crisis and addiction treatment programs can be extremely expensive, making it nearly impossible for people with lower incomes to obtain needed treatment.

However, this is not the case for the 132 SCC patients who reduced their opioid dependency in 2016, thanks to a generous grant from L.A. Care Health Plan.

Our "Take Charge Clinic" focuses on reducing the use of opioids among dependent and at-risk patients, especially those with a high incidence of medical conditions requiring ongoing pain medication. Our dynamic team of Physicians, Nurse Practitioners, Pharmacists, Behavioral Health Specialists, Physical Therapists and Pain Control Consultants collaborate to coordinate each patient's care, treatment and pain management plan.

Health Care and Showers for the Homeless

The homeless crisis in Los Angeles has reached epidemic proportions. According to Los Angeles County's 2016 homeless count, more than 47,000 people are homeless and LA has the highest number of “unsheltered” homeless living on sidewalks, in cars and tents of any city in the United States.

Helping our homeless neighbors and playing a key role in the long-term solution to this growing crisis is a priority for SCC. As one of the few clinics in Los Angeles to offer a free shower program, we are able to link our shower participants to medical care and a case manager who helps connect them with opportunities for permanent housing, jobs and social services.

Additionally, we partnered with Cedars-Sinai Medical Center and Los Angeles City Attorney Mike Feuer to participate in a series of "Homeless Connect Days" that offered free, one-stop health care as well as legal services to this often hard-to-reach population.

In 2016, the free shower program hosted 7,082 showers, providing a safe and clean space for homeless individuals to rejuvenate. Participants are provided with toiletries, new undergarments and clothes.

VISION CARE

For more than 20 years, optometrist Dr. Greg Pearl, O.D., has been volunteering his services and donating frames. In 2016, the Clinic provided 1,868 vision care visits, including Optometry and Ophthalmology services and Diabetic Retinal exams.

132 PATIENTS REDUCED THEIR OPIOID DEPENDENCY

7,082 SHOWERS HOSTED
Bringing Holiday Joy to Families in Need

For the past 27 years, Clinic patients and community members have been lining up early to attend our annual Holiday Party at the First Presbyterian Church of Hollywood. 2016 was no different. On December 13th, more than 500 patients and families in need received clothing, backpacks, socks, undergarments, toiletries, books, toys, and hats. Guests enjoyed a warm meal and children were treated to a special visit from Santa Claus. This special occasion is made possible by the hard work and dedication of Event Chair Marcia Steere and Friends Board Member Martha Henderson. We are additionally grateful for all the items generously donated from the community.
Insurance Enrollment

Let’s Rock EnRoll

Although we serve all patients regardless of their health coverage status, having a form of coverage gives patients access to the full medical services and specialist care they require to heal beyond our clinic walls.

In 2016, the Clinic embarked on an unprecedented clinic-wide effort called Let’s Rock EnRoll to encourage patients without health coverage to enroll in a health plan.

To maximize success, we created special Health Plan “101” materials to provide a basic understanding of the different health plans and services covered, streamlined the enrollment process and participated in community events to offer enrollment assistance.

12,116 TOTAL INDIVIDUALS ENROLLED UNDER THE AFFORDABLE CARE ACT

BEHAVIORAL HEALTH INTEGRATION

Mental health is just as important as physical health. The Clinic integrates Behavioral Health services into Primary Care, offering various support groups and individual counseling year-round. In 2016, the Clinic's Behavioral Health Department introduced a Men’s Support Group to better address the mental health needs of our male patients.
PATIENT ENROLLMENT STORIES

A Chance for Health Coverage

Chance Rearden had health insurance through his job in the entertainment industry, but when his hours were cut, he didn’t qualify for coverage anymore.

Chance wasn’t old enough to qualify for Medicare, and he couldn’t afford to pay out-of-pocket for medical care, so he often skipped going to the doctor.

Under the Affordable Care Act’s expansion of Medicaid eligibility (known in California as Medi-Cal), he was able to enroll in a plan.

With the help of the Clinic’s patient eligibility specialist team, who are experts in health coverage and in constant contact with the Department of Public Social Services, Chance’s application process was expedited quickly.

He now receives primary care at the Clinic and has seen specialists, including a dermatologist and a podiatrist.

“I’ve been able to get medical attention that I otherwise wouldn’t be able to afford to get.”
– Chance Rearden, Clinic patient

A Health Plan for Everyone

Minerva Lopez first came to the Clinic five years ago, knowing we would provide her with medical care regardless of her ability to pay or immigration status. Our team of eligibility specialists informed her about a health plan that was right for her, My Health L.A., and assisted with enrollment.

During her Clinic visits, Minerva learned about important health issues facing her community and developed a passion for sharing this new information with her family and friends. When presented with the opportunity to become a “Promotora de Salud” (health promoter) with L.A. Care Health Plan, she jumped at the chance to expand her outreach work. Minerva visits schools to inform parents and students about topics like nutrition, diabetes care and HIV testing.

Additionally, Minerva is participating in a leadership training to become part of the Clinic’s Community Advisory Council board.

“Saban is a good clinic. I like their service and follow-up. I even have my own primary care doctor!”
– Minerva Lopez, Clinic patient

Family Nurse Practitioner Stacey Nadler gives Chance Rearden, a check-up. Photo by Maya Sugarman/KPCC

Lead Dental Assistant Luis Villanueva helps Minerva and her grandson show their Clinic spirit at a dental event.
Medical Residency and Training Program

As one of Los Angeles’ premier teaching and training facilities, we take pride in playing an integral role in training the next generation of health care professionals. Last year alone, more than 200 medical residents and students from various fields helped care for our patients.

Medical and dental residents, nurse practitioners, pharmacists and behavioral health professionals are provided a rewarding, hands-on experience, caring for our communities most vulnerable patients every year.

We are grateful for our partnerships with exceptional medical schools and health care partners in the greater Los Angeles area. Our neighbor, Cedars-Sinai Medical Center, is one of our largest residency partners along with Kaiser Permanente, University of Southern California and University of California, Los Angeles.

Jim Slotnick Fellowship in Medicine

In 1984, the Clinic created The Jim Slotnick Fellowship in Medicine to provide students from the David Geffen School of Medicine at UCLA a transformative experience working with our vulnerable patient population.

2016 was a special one for the Slotnick Fellowship program with the participation of not one, but two medical students, Diana Partida and Mikaela Kelly. The students follow a long line of talented residents dating back to Jim Slotnick, a remarkable young man who volunteered at The Los Angeles Free Clinic in the early 1980s before he tragically died of brain cancer. Jim adored the Clinic and its mission, referring to it warmly in his memoir, A Short Life, completed as his health deteriorated. The Slotnick Fellowship was created to honor his memory.

In 2016, more than 200 residents and students rotated through our Residency Program.
THE VOICE OF OUR COMMUNITY

Caring to Vote
2016 marked an Election Year and our Beverly Health Center was a designated polling place. We implemented a clinic wide voter registration campaign, “Care to Vote,” to provide our patients voter registration assistance, including those experiencing homelessness.

The Voice of Health Care
With the election of a new administration and the threat to repeal the Affordable Care Act, Saban Community Clinic was a helpful source to National Public Radio stations and health care periodicals reporting how community clinics would be impacted. Nurse Practitioner Stacey Nadler and Operational Floater Josue Portillo are interviewed by KPCC 89.3 FM.

A Mayoral Visit
Los Angeles Mayor Eric Garcetti visited our Beverly Health Center to learn more about our services and programs. CEO Julie Hudman and Chief Medical Officer David Luna guided the mayor through the Clinic.
OUR FUNDRAISING ARM:

Friends of the Saban Community Clinic was established in 1973 to provide a stable fundraising source for the Clinic. The Friends Board hosts annual fundraising events to raise money for our patient care, critical services and programs.

21st Annual Golf Classic Raises $219,000

More than 70 golfers enjoyed a day of 18 holes at El Caballero Country Club and raised $219,000 for the Clinic's services. AEG Live's President of Global Talent, Gary Gersh was honored during the April 25th event for his philanthropic spirit. Scott Marshall, son of the late Garry Marshall, made the first Hole-in-One in the event's history on a prize hole worth $25,000.

Inaugural Let's Get Real Event Raises $130,000

Reality television producers and executives came together, June 8th, to support the Clinic’s inaugural “Let’s Get Real” event, honoring award-winning, veteran producer Thom Beers (Deadliest Catch) for his professional and philanthropic leadership. The event, held at the Viceroy Hotel in Santa Monica, hosted 300 attendees and raised more than $130,000 for the Clinic.

The fundraiser was started by co-chairs Hayden Meyer, Agency for Performing Artists (APA), David Eilenberg (ITV Entertainment), and Marc Kamler (APA), to unify the reality television community for a cause — to support the Clinic.

“I am humbled by the work of the Clinic and all of those that donate their hard work, their time, their patience, their money and their love to such an amazing place.”

– Gary Gersh

“We are thrilled to be able to help the Clinic reach a new cohort of patrons, and we look forward to turning this event into an annual success!”

– Hayden Meyer
Friends Celebrate Milestone - 40th Annual Dinner Gala

In 1977, the Friends Board hosted its first Gala with 300 guests and raised $30,000. Today, the Dinner Gala has become one of the premier fundraisers in the city and has raised more than $50 million for the Clinic’s services and patients.

On November 14th, 700 guests filled the Beverly Hilton ballroom for a fun evening of music and entertainment to benefit the Clinic’s work and honor John Landgraf, CEO of FX Networks and FX Productions, and Trisha Cardoso, EVP Corporate Communications for Showtime Networks, for their tireless dedication to the Clinic.

The evening raised over $1.8 million with the highlight being the Fund-A-Need fundraising portion, which raised more than $225,000 in just under 10 minutes for some of the Clinic’s programs including HIV care, women’s care, homeless care, and the opioid clinic.

**Friends Leadership Award:**

John Landgraf was honored with the Friends Leadership Award for his longtime commitment to and philanthropic support of the Clinic’s mission and services.

**The Lenny Somberg Award:**

Trisha Cardoso, longtime Clinic volunteer and supporter, received the Lenny Somberg Award demonstrating outstanding service and dedication to the Clinic. This award is named after the Clinic’s first Executive Director, Lenny Somberg, who worked tirelessly for the Clinic in the early 70s. Lenny was even known to give-up his paycheck whenever the Clinic couldn’t pay its bills.

“Spending time at the Clinic changed me. I met passionately dedicated doctors, dentists, healthcare professionals and administrators who provide services as good as any of the best hospitals and medical offices in this city.”

– John Landgraf

1. Danny DeVito presented John Landgraf with the Friends Leadership Award.
2. From L to R: Friends Board Member Warren Littlefield, Lenny Somberg Award Honoree Trisha Cardoso, actor Ewan McGregor, Friends Board President Richard Weitz, Friends Board Member Ellen Hoberman, Friends Board Member Tom Hoberman, and John Wentworth.
3. Friends Board Members Bruce Rosenblum, Bela Bajaria and David Nevins.
4. Actress and comedian Aisha Tyler was the emcee for the night.
5. Emmy-Award Winning actor and legendary comedian Louie Anderson provided comedic entertainment.
6. John Stamos introduced a tribute to the late Garry Marshall, a longtime supporter of the Clinic.
