

SABAN  
COMMUNITY  
CLINIC

# 2018 Impact Summary

## Connecting with the Homeless

Saban Community Clinic is addressing the unprecedented homeless crisis in Los Angeles with several new initiatives. Last year, the Clinic provided more than **6,700 homeless patient visits**.

The **E6 Outreach Team** administers care to the chronically homeless, on the streets. In just six months, the collaborative team **provided care to 600 people and placed 75 into housing**.

The **Continuing Your Care** program coordinates care for frequent ER visitors who have been discharged from Cedars-Sinai Medical Center. In just one month, **16 individuals have been linked to services at the Clinic**.

Our new **Homeless Connect Kit** is a vital resource to someone on the streets. It provides hope, restores dignity and provides a gateway into the Clinic for a warm shower and health care. **More than 1,500 kits have been distributed**.

## Increasing Technology: Saban App

The **Saban App** connects patients to everything they need in one central location. The app is also linked to **MyChart**, allowing patients to make appointments, refill their prescriptions and receive their health information in real time, providing better communication with their medical home.

## Expanding Pediatrics: Saban Kids

The expansion of our pediatric care team including a Pediatric Dentist and Practitioner of Family Medicine allowed us to see more children at our Melrose Health Center. **In the last year, pediatric visits have increased by 30%**.

### SERVING THOSE MOST IN NEED

**8%** of our population last year was homeless.

**72%** live below the Federal Poverty Level.

On average **27%** of the cost of a visit is not covered.

**\$7 million** in free services were provided to patients last year.
