

SABAN  
COMMUNITY  
CLINIC

# 2019 Impact Summary

## Welcoming Spaces

We are proud to have facilities that embody a positive, welcoming experience to match our high quality care. A light refresh at all three sites has allowed for improved flow and function for both staff and patients. New signage and wayfinding at our Hollywood and Melrose locations allow for a more efficient experience. A complete renovation of our aging Beverly Health Center was completed, including a brand new shower (below right) and updated Homeless Services Suite.

## Continued Growth

### Virgil Family Health Center

With construction almost complete, our newest site will open this April in Rampart Village, with top of the line amenities that will provide a safe and comfortable space for kids and their families to receive medical, dental and behavioral health care. The site will provide an additional **15,000 patient visits** each year.

### Community in Action

Our Homeless Connect Kits and Pediatric Care Kits have allowed hundreds of individuals, schools and local businesses to get involved in a hands-on way. More than **5,000 kits** were assembled and distributed, providing children and individuals experiencing homelessness basic essentials. Patients receive a life-saving vaccine and a warm shower as part of the program.

### Tele-Psychiatry

Increased access to much needed mental health services was made possible through a telehealth grant from Kaiser Permanente. Giving patients the opportunity to see a therapist via video chat at their primary clinic location without having to travel to one of our other sites, has allowed us to advance quality and access to care.

## 2019 BY THE NUMBERS
